ASSOCIATED PRESS TELEGRAMS

HAVAS AGENCY

Paris, 3rd.

The Spanish-German question has again assumed a serious aspect. It is believed that the violent and agressive language used by the Madrid Press has had something to do with this sudden change for the worse in the present difficulties.

Marseilles, 3rd.

Within the last 24 hours 20 fatal cases of cholera have occurred in this city.

Toulon, 3rd.

Number of fatal cases of cholera yesterday 29.

Rio Janeiro, 3.

By telegraphic orders from Lisbon the Consul and all pertaining to the consulate in this city have been placed at disposal of the authorities.

Señor D. da Silva Ribeiro, Consul in Bahia has been appointed to discharge the duties of the Consulate temporarily.

PRESS TELEGRAMS.

Madrid, 1st—Yesterday there were 3669 fresh and 1120 fatal cases of cholera in Spain.

Madrid, 2nd—Since the appearance of the plague there have been 263,542 and 82,619 deaths of cholera.

Rome, 2nd—Cholera has broken out in the province of Genoa.

Paris, 2nd—A large meeting of Spanish and French residents was held here last Sunday for the purpose of protesting against Germany's attitude with regard to the occupation of the Caroline Islands.

Zelikwic, who spread the report that England caused the death of Olivier Pain, has appealed to Russia for protection against the British authorities. The *Republique* states that the officer who signed the warrant offering a price for the head of Olivier Pain should be degraded.

London, 2nd—At a banquet given at the Mansion House by the Lord Mayor in honor of Mr Parnell and his Irish colleagues, the Leader of the Irish party stated that if the autonomy of Ireland be disregarded the Irish people would succeed in rendering British legislation impossible.

Berlin, 1st—The Emperor and Empress visited the Imperial guard in honor of the 15th anniversary of the Sedan victory.

London, 1st—The Prussian Government have issued orders for the expulsion of the Polish residents in Dantzig. In virtue of this decree many esteemed and well-known merchants will be obliged to leave that city.

New York, 2nd—The railway companies have decided to employ electricity as motor power for their engines. The Daft system was employed for a journey from Fifteenth to Fourteenth street, resulting in the most satisfactory manner. Time employed, 7 minutes. Hundreds of persons had assembled to witness the passage of the silent locomotive, and the greatest enthusiasm prevailed.

Rosario 3rd.—Col. Oroño, Jefe Politico in Cañada de Gomez, who promised to proclaim Galvez's candidature, will proclaim that of Iriondo next Sunday.

Over 25 individuals have been imprisoned in San Lorenzo. There are 6 ocean going vessels taking in cargo in the port. During the month of August 32,608 bags of sugar were received from Tucuman.

Santiago del Estero 3rd—The Rochistas still complain of persecution by the authorities. Several of them have been imprisoned for being disorderly.

Montevideo 3rd.—The French gunboat Tactique will be sold at auction, the engines to be sent back to France. The Etoile will replace her as cruiser in River Plate waters.

The marriage is announced of M. H. Gradin with Miss Carmen Hoffman.

The wife of D. P. Rivera, the President's aide-de-camp, died last night after a lingering illness.

Advices have been received from Rome, reporting that Dr. Soler had a private audience with His Holiness Leo XIII. According to the *Diario Catolico*, the Pope enquired particularly into the religious difficulties in the Banda Oriental, and approved of the conduct of the prelates.

The Spanish Minister contradicts the report that he was ill-treated during his "paseo" to the Paso de los Toros.

A diplomatic reception takes place this evening at the residence of the Minister for the Republic of San Marino.

The two Chambers sit to-day.

No official telegrams have been received with regard to the appearance of cholera in Genoa.

In political circles everything is quiet. No news of any importance.

PARAGUAYAN LAND LAW.

The new Land Law in Paraguay has just been promulgated by President Caballero, and as very many of our friends may be interested in these lands, which, according to this law can be bought at even less than 150 $m/n per square league, we publish the following precis :—

The public lands of Paraguay are divided into five classes, with certain fixed prices for each class, and payable in Paraguayan bonds. The following will explain to our readers the different localities of the public lands and their respective classes of prices.

Art. 1.—The Executive is hereby authorized to sell the public lands, in accordance with the stipulations of this law.

Art. 2.—The public lands shall be divided into five classes as follows :—

1st. Camps of the first class are those in the following departments :

San Lorenzo del Campo Grande, San Lorenzo de la Frontera, Ipané, Guarambaré, Villosa, Villa Oliva, Villa Franca, Villa del Pilar, Villa Humaitá, Luque, Limpio, Emboscada, Arroyos y Esteros, Villa del Rosario, San Estanislao, Villa de San Pedro, Villa de Concepcion hasta el Aquidaban, Areguá-Capiatá, Itá, Itauguá, Piraý, Yaguaron, Altos, Atirá, Tobatí, Caacupé, Barrero Grande, Caraguatay, San José, Itacurubi de la Coadillera, Valenzuela, Ibitimí, Paraguarí, Acahay, Carapeguá, Tabapy Quiindi, Ibicuí, Caapucú, Quiquió, Mbayaspey, Villa Florida, San Miguel San Juan Bautista de las Misiones, Villa Encarnacion, Caazapá, Ihacanguazú, Villa Rica, Itapé e Itacurubi del Rosario.

2nd. Camps of the second class are those in the following departments :

Pedro Gonzalez, Laureles, Yabebiry, Desmochados, Tacuaras, Guazucuá, Isla Ombú, San Ignacio, Santa Maria Santa Rosa, Santiago, San Cosmo, Bobi, Cármen del Paraná, Jesus y Trinidad, San Pedro de Paraná, Yrú, San Juan Nepomuceno, Mbucayaty, Yatahity, Hiaty, Ajos, Carayao, San Joaquin, Union, Horquets, San Juan Bautista de Nembucú, Lima y Tacuati, and the territory stretching from the confluence of the Aquidaban and the Paraguay to the Rio Apa, lands in the latter territory to be sold with an area five times the frontage solicited on the Paraguay.

3rd. Camps of the third class are those comprised between the Pilcomayo and Villa Concepcion, in the Chaco territory fronting the Rio Paraguay and at a depth of 10 leagues inland.

4th. Camps of the fourth class are those situated in the Chaco from Villa Concepcion to a distance of ten leagues inland and thence 20 leagues of the belt of territory comprised between the Pilcomayo and Villa Concepcion.

5th. Camps of the fifth class are those not included in 3rd or 4th.

Art. 3—The price of the camps of the 1st class is hereby set down at 1200 c/l in public funds per square league, the camps of second class at 800 hard dollars, the third class at 300 dollars, the fourth class at 200, and the fifth class at 100 dollars.

Art. 4—The purchase of the camps can be effected in four yearly payments : the first to comprise 25 o/o of the total amount and to be paid at the Junta de Credito Publico in legal tender money or in public fund bonds, and with the intervention of the Contador General. For the other payments three bills (pagarés) to order of the Junta and at terms of one, two and three years, with an interest of 6 o/o shall be signed.

Art. 5—All payments after the passing of this law for sales or renting of land in the fiscal territories shall be made in legal tender money or in public funds bonds.

Art. 6—Buyers are at liberty to pay their bills at any time with a reduction of 12 o/o per annum from the day of payment.

Art 7—On the drawing up of the title deeds, the properties shall be mortgaged, until expiration of term of payment, in favor of the State.

Art 8—To pay off the mortgage, the interested parties shall present at the Ministry of Interior their bills, and the necessary orders shall be issued to the Registrador for the corresponding payment.

Art 9—In case of non-payment of bills at expiration of term the corresponding properties shall be sold. The Junta de Crédito Publico shall sell these properties without the obligation of applying for judicial authorization. Thirty days notice must be given in the papers that those properties are to be sold by auction. If the bills be paid a day at most before the auction takes place, under the conditions specified, the interested parties shall receive the properties, paying the cost of advertizing, etc.

Art 10—Pasture lands alone can be sold in fractions of not less than half leagues. The price to be paid in proportion.

Interested parties in Chaco camps shall purchase an area in depth ten times the frontage solicited.

Art. 11th—Purchasers of fractions in the Chaco camps shall be entitled to a reduction of 50 o/o on the price stipulated in Art 4, on the conditions that during the term of payment, 25 European families (a family comprising of three persons) be settled on the lands in question.

A fraction of camp, in reference to the preceding article, is understood to consist of one league front by 10 deep.

Art. 12th—In case of several applicants for the purchase of camps, an auction shall be called, upset price being the amount stipulated in Art 3. Thirty days' notice must be given in the papers to this effect.

Art. 13th—Lands that are not to be sold are the following :—

1st. Those lands especially excepted in virtue of previous laws.

2nd. Those lands which the Executive may deem adapted for colonization purposes.

Art. 14 The following prices are the rents, $250 for first class ; $200 for second class ; $150 for third class ; $100 for fourth class ; Payments to be made in legal tender notes or in Public Funds bonds.

Art. 15 One year after the promulgation of this law, if settlers who may not have purchased the lands they occupy shall pay at the rate of 25 cents per square square (cuadra) per annum, being at the same time entitled to buy the lands they occupy in preference to any interested party.

The extreme cheapness of some of those lands may possibly induce many parties with a little spare money to invest ; what, however, would much facilitate the business would be the publication of a good map of all the lands offered for sale by the Government. We have seen at the auction of National lands in the Nauquen and Limay valley, the very high prices paid by people who have never seen the lands, never intend to see them, and who evidently purchase for posterity. The Paraguayan Chaco lands are infinitely more fertile, and more conveniently situated, yet the Government offers to sell lots of ten square leagues for 100 Dollars per league, payable in Paraguayan National Bonds, which we suppose can be bought at 50 per cent of their par value. Here then we have 10 square leagues to be sold for 500 m/n the whole lot, or say 50 Nats per league. We believe that in the Soudan, they would ask more, and if the Paraguayan Government thinks proper to freely advertize its lands and its terms, we believe that in the books of the STANDARD will be found buyers for every league that is to be had on such easy terms.

CONTRIBUCION DIRECTA.

The Contribucion Directa decree issued by the Government yesterday took house owners by surprise. They calculated on the same valuation as last year, but, owing to the zeal of Mr. Galarce, the talented chief of the Contribucion Office, their entry for the tax this year will be "quite another thing."

In a very long and able note to the Minister of the Interior Mr Galarce informs H.E. that he has gone "au fond" of the matter. He found innumerable "irregularities" (not to put too fine a point on it and has swept them away with an ungloved iron hand. The Contribucion Tax of the city has hitherto been low to a ridiculous degree compared with the selling value of house property. It will scarcely be believed that 12,800 houses of business, 80 per cent of them being merely petty shops, yield in Contribucion Directa 700,000 nats a year, while 43,000 private houses only yield $940,000.

In 1883, according to the declarations of the house owners of the capital, their rents amounted monthly to $2,830,000 m/n for tenanted houses alone, but the fact is that their income is over 3 millions monthly from such properties ; and Mr Galarce has now fully convinced himself that the low receipts from the tax are solely due to the careless valuation of the properties. This year the employees have had more time than formerly and have gone into the matter thoroughly, the result being to prove that, up to 1884, the valuation and consequent tax collected was fully 50 per cent under the real selling value.

So flagrant is this abuse that some properties pay in Contribucion for the whole year what they produce to the owners in THREE DAYS ! ! Another source of abuse is the valuation of large areas at a much lower rate than small lots.

In reference to the wealthier Sections of the city, Mr. Galarce declares that he could point out hundreds of houses that give from 5,000 to 8,000 Nats. yearly rent that only pay about 35 to 50 per cent. of what they ought in Contribucion Directa. As for the less central Sections, 12, 15, 17, 18, 19 and 20, where the basis for valuation varies from 20 cents to one National the square metre, all the sales since January last prove the value of the square metre, to be from 2 to 5 National dollars !

With all these irrefutable proofs that the law prescribing the selling price of the property as the basis for valuation has never been complied with, Mr. Galarce proceeded to work vigorously to raise all the valuations. He found that in most of the Sections of the city no valuation has been taken for TEN YEARS !

Mr. Galarce, in his note, says that in acting as he has done he has kept the existing laws in view, and only corrected errors and abuses that should never have existed. Nevertheless, he adds, the Juries consider they have no right to interfere as a Government regulation prohibits them from doing so when the valuation has been altered without any change in the property having taken place.

He concludes his very important note by saying that as he is convinced that the valuation for the present year does not represent 70 per cent of the real value of the property, Government should at once explain the rather foggy regulation just referred to, so that the Juries may be able to act as the law prescribes.

The following is the Government decree :—

In view of what the Chief of the Contribucion Directa Office has set forth, and of the report of the Director of Revenue. And considering :—

1st. That the decree of last April was based on the report of the Reevnue Department to the effect that it would be impossible to make a new valuation of the home property of the Capital within the time prescribed by law ; but owing to the activity of the Contribucion Office a new valuation has since been made for the greater part of the town.

2nd. That as is well known, the valuation taken in 1884 was much below the real value of the property.

3rd—That properties on which old houses have been thrown down and new ones built during the past year, and also all new buildings erected during last year and this would be unjustly taxed by a valuation relatively much higher than that of the neighbouring properties that would escape a new valuation.

For all the foregoing considerations the President of the Republic decrees :

Art. 1—The steps taken by the Contribucion Directa Office are hereby approved ; and that part of the decree of April 27th last in reference to this matter is hereby repealed.

Art. 2—Let this be communicated etc. etc.

PARIS LETTER.

(From our own Correspondent.)

Paris, July 25th.

Fetes continue to be the order of the day. At Issy there is a most useful establishment, neither an hospice nor a poor house. It is called the *Petits Menages*, where widows and widowers, and old married couples over sixty years of age, are supplied with all the comforts of a home, for a modest sum, paid annually by their friends ; or for a lump payment of 800 frs. The inmates are divided into two classes, those who live at common table, and those who have a small chamber to themselves. Every year an annual fete is given to the Philemon and Baucis, when their family and relatives come to assist. A poor relation in France is never considered as a fly in your ointment, or as casting his shadow across your chamber door. Once a parent has reached sixty, the children are bound by law to contribute, each two or six sous per day as maintenance money. The fete in question has just been held. I went to visit an old friend, that a few outsiders have subscribed to place there for shelter. His little chamber was decorated for the occasion ; he could not explain how he received the flowers in pots and bouquets, with tricolores to hang out, and Venetian lanterns to festoon his window ; besides a supply of creature comforts as if the city was about being besieged. So we drank his health several times, and packed his private cupboard till the next merry meeting. Then we went down-stairs and witnessed the dancing, to the music of a volunteer orchestra. There is no common dress, so many appeared in fashions dating from when George the Third was King. The ball opened with a lady, aged 85 ; her vis-a-vis was a gallant in his first teen ; a charming Alsacian, of some twelve summers, was led to the front by a once page of Louis XVI. A happy effect was produced by a wedding party, who insisted on joining in ; the bride was seventeen, her two hours' old husband, 22 ; the bridesmaids were all dressed in white with blue corsages.

The fashionable novelty at the sea side this season is, pancake parties. The pancakes are prepared on the beech, or a neighboring grass plot, and by the guests. The ladies provide the materials, the gentlemen the charcoal furnace, pans etc., and the cider, the only beverage allowed. The gentleman who can toss a pancake well is as much in request as an amateur Mario for a soirée, or a successful leader of a cotillon. Bets are laid as to the tossing abilities of the guests ; if a lady and gentleman come out of the ordeal successfully, they will be married before Shrove Tuesday. If a gentleman operating alone, display ability, it is a sign he will make a great deal of money during the remainder of the year ; but what is more certain, he will be kept tossing as if on a tread mill.

In the Faubourg St. Germain, a clothier dismissed his cashier, aged 60; he came to his employer the next morning and begged to be taken back ; meeting with a refusal, he shot the unfortunate master and then himself. At Caen, one Hurterant has been guillotined for an atrocious crime ; the condemned roared like a bull, had to be dragged under the instrument ; he bit the executioner, who was so affected that terrible bungling in the decapitation took place. M. Paul Bert, and Dr. Laborde have had a terribly warm discussion at the Biological Society respecting the experimenting on the heads of the guillotined. Paul Bert is the enemy of such practices ; he is a sensitive man also. I remember when Gambetta was being embalmed, Dr Bert, his great friend, rushed out of the room into the garden and shed tears during the operation ; but he not the less has Gambetta's brain in the Society's museum. Dr Laborde and his followers believe that the decapitated head has sensation during 52 minutes after being struck off if dog's or cow's blood be immediately injected into it. Aided by electricity, they expect yet to obtain the evidence of intelligence, as well as sensation, by the expression of some 'positively last words.' A young seamstress stopped at the St. Michel fountain, and leaned over the basin to cool her hands ; a clerk passing by tipped her into the water, and walked, laughingly away, right into the arms of a detective, who saw the whole scene. He has been sent to prison for a month and to pay 100 fr. damages for the girl's toilette.

Mothers-in-law have not the reputation of being amiable. Madame Charlot, during the family dinner at her house on Sunday last, stormed at her son-in-law, because, though only an engraver, he was not making a fortune. Her husband tried to calm her, failing this, he accompanied his daughter and her husband to the buss office. In the meantime Mme. Charlot seized the loaded revolver of her husband, drove to the son-in-law's lodgings on fourth story, and awaited his arrival, with his wife and their baby. It was mid-night on hearing his voice, she fired four shots ; the wife not knowing who was the aggressor, rushed to save her husband, to the danger of being killed, along with her baby ; the unfortunate man received one ball in the back.

Considerable excitement exists in Belleville. In 1854 a French soldier left for the Crimean war, shortly after his marriage with a girl aged sixteen. Nothing was heard of him till a few days ago, when he dropped in, on his old mother, and requested to know all the news since they parted. Believing him to be dead, his wife informed him, she had married a second time and lost that husband, she is now married again to an engine driver, and confesses she is quite puzzled. Enoch Arden was introduced to a numerous, grown up, and mixed family, but in no way under obligations to his paternity.

M. Bazin is a well-known engineer, who appears to have secured the missing link, in practical electricity, that of making it a cheap, certain, and economical lighting agent, and motive power. His experiments and calculations have been examined and controlled by eminent authorities, and pronounced successful. In about three weeks his experiments will take place on a large scale, for all who wish to test his discovery.

A journal devoted to the cremation idea, exhibits in its office, fragments of the winding sheet and bones of a body, recently and beautifully incinerated in the course of three hours, at Milan. The debris are as white, and look as pure as snow. Odd contrast, it is a nigger of the deepest ebony and of the broadest grinning standard, who explains how the process takes place.

A proof that the relations between China and France are likely to continue good : the Celestial Legation here has given an important order to a wine merchant, to stock the cellars. The ambassador on arriving will find the house swept and garnished ; he can even assist at the interment of Admiral Courbet. The corpse of an enemy ever smells sweet.

France is taking a wrinkle from Chinese duck-breeders, as old barges are turned into poultry pens. Flocks of ducks are thus brought up from Rouen, and fed on the banks en route to Paris. At night they come on board. The last bird arriving is whipped, "pour encourager les autres".

LONDON LETTER.

THE LAST WEEK.

(From our own Correspondent.)

July 24th.

Another week or so and we shall be all away to babbling streams. The evolutionary squadron is dispersing, and the "Oregon" is on her way to Liverpool to be paid off, *no further use for her services being contemplated !* That looks like the end of Russian scare No. 2; though nobody knows when the next may come. The Persian papers, which speak of this question as a matter of trade, and of roads made by the Russians, say coolly that Russia is working steadily towards Herat. I may add, on good and private military authority, that England is working as steadily towards Candahar. The contest will occur between those points.

I am very much afraid that the next sensation will be the news of the death of the German Emperor. The official papers in Germany do their best to hide the truth, but it is obvious that His Majesty is in the very last stage of feebleness, and is simply kept on his legs by great care and his own marvellous constitution.

Prince Henry of Battenberg was pale and nervous at the ceremony yesterday. Perhaps he does not very well understand the English Marriage Service. When he was asked, "wilt thou have this woman for thy wedded wife ?" he said nothing. The fact is, he had already said, "I will, by Jove!" being in too great a hurry, as most men might under the circumstances, supposing that the Princess Beatrice is not like the portraits of her published in some of last night's and this morning's papers. They look like portraits of her Royal Mother done with a burnt stick. We are told pathetically, that at the "white funeral" "the Queen gave her child away, and it was pleasant to notice with what motherly care and pride she smoothed out creases in the bridal veil." Ah ! those creases ; they are often never smoothed till the "black funeral;" and, as an Irish gentleman has just observed to me, "with great deference, Sir, to Lord Tennyson, gad ! I think one funeral in our life-time is enough for any man."

The police have arrested a man in London on a charge of threatening the Princess Beatrice. The prisoner is short in stature, and presumably between fifty and sixty years of age. The doctors are not yet able to say whether he is insane. Of course, he is. To be betrayed, fifty and sixty years of age is enough to make any man insane ; besides, the weather is against him.

The House of Commons itself, or the majority, is affected, and has been rude enough to defeat the Ministry, which kindly took charge of us on the express understanding it was not to be defeated. Lord Salisbury is so alarmed at these rabid symptoms, that he is going to drop everything but "supply," and send us into the country. Quite right. The subject of the defeat was the Amendment to the Medical Relief Bill, introduced by that humorous Radical, Mr. Jesse Collings. The original Bill, which the new Government was good enough to adopt, permitted a man to receive physic at the public expense without being counted a pauper, but the question now turns on what is physic ? Does the term include blisters, leeches or stimulants ? and then stimulants might be prescribed as beer or brandy, assuming very much the shape of bitters, and so on. All a screaming farce, and well enough to amuse us before the raising of the curtain in November on the real drama, but getting a little too long.

Any of your friends who are interested in the Munster Bank will be glad to know that some members of the Irish Parliamentary party have had an interview with members of the Government in London, and an agreement has been come to by which another application will be made to the Bank of Ireland for an advance of half a million, giving over all securities, and agreeing to make a call of 30s. per share, and to obtain a guarantee from the depositors to the extent of one million sterling that the deposits will not be disturbed for six months.

The papers are filled with memoirs of poor General Grant, the royal wedding, &c., and there are leading articles on the "Great Auk," the Dodo and Dinormis.

There is not a telegram worth quoting from any part of the world, and unless "the unexpected" happens, you may give us up for a couple of months.

EDITOR'S TABLE.

The fast steamer Sud America cleared yesterday from the Boca, and the R. M. S. Tamar clears to-day. Mr. Petty the well known Royal mail pilot will, we are happy to say, be able to resume his old post, being now completely convalescent.

Three cheers for Hume Brothers ! The contracts for the extensions of the Colonies Railway in Santa Fé have been signed, sealed, and delivered, and in a very short time we shall have this railway running out not only 100 kilometers north of Lehman colony but the branch running to San Carlos, Frank, Tunas and other colonies, the total cost of these works is fixed at 869,564 m/n, and this does not include the Colastine branch which will also be constructed.

We hear from Rosario that the flour mills at the Santa Fé colonies turn out now in the year 500,000 bags of flour, which seems to us an enormous yield, and we note that in the last fortnight we shipped from this port alone 150,000 bags of maize, such figures show the wondrous march of agriculture in this country.

The attention of our readers is called to an article in our leading columns on the new Paraguayan land law. Those who wish to buy land for 50 Nats per square league will have a chance now. This beats the 10,000 m/c per league law hollow.

Yesterday there was quiet wedding-party in Calle Cerrito and Temple, Miss Marianne Long, who was led to the Hymeneal altar by Mr. Martin, of the Northern and Ensenada Railway Co. The Rev. Dr. Smith, who married the bride's mother, officiated, Mr Carminati and Mr Munroe acting as best men on the occasion. The presents to the bride were both beautiful and numerous, a grand dejeuner followed the ceremony, and the happy couple started for the steamer to pass the honey-moon in Montevideo.

The 'pasto fuerte' letter, we published yesterday, has attracted such great notice that, we believe, it will do a world of good. We received advices from Loreto yesterday, and hear of an Irish sheep farmer there, who has 5,000 sheep and 1,000 cows on a league and a half of land, and not only has lost nothing but will have increase.

Police had to stand at the doors of Mr Dewey's libreria in Calle Piedad yesterday, owing to the rush made on the premises for the *Graphic and Illustrated News* marriage numbers. The pictures are so truly beautiful that we have hung them up in our printing office. Mr Dewey, it seems, anticipating the squeeze, ordered a large supply of extra numbers, so there is no apprehension of any trouble between Mr Dewey and his nuptial customers.

We have to thank an American friend for a copy of the New York *Times* with all about the late General Grant. It is believed that General Grant's widow will clear $500,000 gold Dollars from the sale of the posthumous work of the General.

The talked of ball at the Lord Mayor's new house is all bosh. There is a strong movement against his Lordship and they want to put him out.

General Mansilla continues to hang in the scale between life and death. Dr. Mackern, we hear, will probably operate on him.

In the celebrated divorce case pending, we hear the husband has demanded that his wife be placed in the Ejercicios. The Judge refused, and the husband appealed. River Plate wives should never go to law with their husbands.

Shareholders of the Flores Road Co. will be delighted to hear that a dividend payable on Saturday is declared, 6 m/n per share.

We hear that the Cooperative Society is going ahead like a Presidential candidate. Lots of new shareholders, and the demand for tea and sugar increasing every day.

The cable brings news that may or may not be the precursor of something serious. In several parts of France meetings have been held to protest against the action of Germany in the Carolinas affair. Perhaps this is the very thing that Bismarck wants and expected.

Whoever wants to know all about the wonderful city of La Plata should make it a point to read the Memoria, just out, of Dr Achaval, Buenos Airean Minister of Government. It is like a chapter from the Arabian nights, or one of Gladstone's budgets.

Home owners' phizes were 'sicklied o'er with the pale cast of thought' yesterday owing to the note of Mr Galarce, head of the Contribucion Directa Office, which fell like a bomb among them. They thought they were going to escape with the valuation of 1884, but Mr G. has put quite another face on matter. His note is quite startling. In some parts of the city no valuation for C. D. has been made for ten years, and the loss to the Treasury must be very stiff indeed. We give the note and decree in another column.

Mr Luis Boby was left a pauper the other night owing to having slept with his door open. It took him 40 years to save 200 Nats, and now it is all gone. One more o would make Mr B.'s name perfect.

The Municipal Budget for 1886 is ready. Except for the tax-payers, these City Budgets are invariably good fun.

"Doña Juanita" was given last night at the Apollo Theatre in La Plata. Fancy such a nice girl having to waste her sweetness on the desert air of La Plata !

The cholera figures from Spain are truly appalling : 223,546 cases and 82,646 deaths since it began ! It is increasing in Genoa ; decreasing in Marseilles.

Another frightful murder has been added to the long roll of unpunished atrocities in that blood-stained province Entre Rios, where an old French woman, Madame Girard, has been butchered for a few dollars she had in the house. "How long, Oh Lord ; how long !

The Rosario Municipality is going through the farce of inspecting the milk supplied to that town. The same old game is played as usual. The 'lecheros' get wind (through friends) of the day an inspection is to be made, and take their 'measures' (no pun meant) accordingly. The other morning, at 7½ a.m. one of our reporters saw a burly Biscayan watering his milk within ten yards of a policeman at the corner, in Calle Piedad, and giggling over it with an 'amigo.'

A rather venerable lady countess married a man who did not belong to the nobility. "How did she come to marry him ? She has a title and he has not,' remarked one gentleman to another. "I don't know for certain, but I suspect she preferred to have a husband without a title to having a title without a husband."

Our esteemed colleague the *Union* is quite right. It is sickening to read the personal flattery and flummery heaped on their candidates for the Presidency by most of the other papers. The *Union* does not do it.

Our American Cousins have done it, as usual. The steam locomotive is doomed. Electric engines have proved the most complete success on the elevated railway in New York and the people cheer and wave their hats as the 'silent engine' hauls the train along, without steam, sparks, oil, and dirt flying on all sides. It's a prodigious hit for electricity.

"I suppose you get up early to set a good example to the rising generation ?" "Oh no, not at all ! The rising generation doesn't need any example. It's the generation that doesn't rise the we want to influence."

There was n't so much Lean twaddle in the papers yesterday. The avalanche on the Bolsa seems to have taken the shine out of our colleagues. We hope they have not been speculating and got hit. An editor should never speculate, except on the mutability of human affairs.

The Urquiza family have protested against any amnesty being granted to Lopez Jordan.

The telegraph announces terrific ructions in the Chilian Chambers, and the Brazilian Minister inexpressibly shocked at what he saw there. His Brazilian Excellency need not to be so squeamish. There have been very pretty rows in the Rio Chambers now and then. The French legislators too are very rowy. Even the House of Commons is not exempt, and Bismarck starts a shine in the Reichstag occasionally.

In India a widow burns for her first husband. In this country she burns for her second one.

Another politician has been despatched to the happy hunting grounds in Rioja. A soldier did it, and, of course, there will be the usual flare-up in the papers.

The Horse Marines, the Boatswains, the doctors, and some of the gunboats are marked for Budget extinction. The Naval School is to go to Zarate, and be put on board a ship. So best. A Naval School on shore sounds rather South-Americanish. As well drill a cavalry man afloat.

Some people have wonderful luck. A bullock-cart with the driver fast asleep in the bottom of it was caught by a train near Bragado the other day. The cart was smithereened, but the snoring driver was rolled gently on the grass, just enough to awake him. Dr. Irigoyen will have well earned the Presidency, if he should happen to fluke into it. He is now stumping it in that remote and melancholy place Jujuy. The worthy doctor would make a tip-top President.

The *Revista Naval y Militar* is very severe on another outrageous piece of extravagance in contemplation, namely to erect a grand Military College, such as the great nations of Europe have. This is simply shameful with the country's finances in such a state. Our colleague declares that the Military School is a complete farce. There are 190 boys clothed and fed there ; but their education as officers is simply nil, and they know just as much about war when they leave the school as when they entered it.

This very sage advice was given by an aged priest—"Always treat an insult like mud from a passing vehicle. Never brush it off until it is dry."

The learned city of Cordoba is becoming rather fond of strong liquors. On Saturday and Sunday last the police had to 'run in' sixteen 'drunk and disorderlies.' A few years ago inebriety was unknown in Cordoba, at least amongst the lower, or next to lower classes. Now, "totting" is getting into vogue amongst all. It's a broad fact that this is the case in lots of places besides Cordoba.

An Oriental potentate once bade his prime minister compose for him a motto that would answer both for seasons of prosperity and adversity. Here is the sentence which he had engraved upon his signet-ring—"This, too shall soon pass away."

With the natives of Burmah it is a belief that people born on a Monday are jealous ; on Tuesday, honest ; on Wednesday, quick-tempered, but soon calm again ; Thursday, mild ; Friday, talkative ; Saturday, hot-tempered and quarrelsome ; while Sunday's children will be parsimonious.

Strange to say, there was no attempt at suicide in this city during the month of August ; but September opened with one made by a pretty grass-widow of 25, a Spaniard, whose husband is in the camp. She got a fit of hysterics the other night and took a header into the nearest "algibe." She was pulled out, however, safe and sound, and is about to start for the camp to tell her worse half all about it.

Rigoletto to-morrow night at the National Theatre, by the Rajneri company, which we hear, is a right good one. The wonder is that people have a copper left for theatre-going, there have been so many companies here this year.

Socialism in Buenos Ayres ! ! Here's news indeed ! A new weekly paper, organ of the Italian Socialists in this city, will appear next Sunday. We won't welcome it just yet, until we see whether it brings any dynamite into the Bus or not.

Talking of dynamite ! It's a mere penny cracker to the new explosive discovered by a Swiss chemist. This new stuff is called, Romite ; and the discoverer's first experiment on a large scale will be to blow the summits off the whole Alpine range, so that British tourists may not have so much work to get to the top as formerly.

They have commenced work on the building in Palermo Park for the Rural Society's Exhibition next year. We'll lay a "monkey" to an old hat that it wont be finished in time. No Exhibition building ever has been yet, and the truly Rural Society is not going to begin.

Professor Kyle delivered a most interesting lecture on Wednesday night in the saloons of the Scientific Society. His subject was the Chamberland Filter, the finest this side of the moon, and approved by Pasteur. It would seem hard to say anything very interesting about a filter ; but the Professor is of the 'nihil quod tetigit' order, and his paper was the gem of the evening.

The provinces in some respects are not much better than 40 years ago. In Tucuman the other day an unfortunate "paisano" was put in the "cepo" and literally beaten to death by a brutal police sergeant, who is still at large.

Copenhagen last. Now Lima. The *Campeon*, published in the Peruvian capital, says that said city is quite as bad as London in the vice line. We have no doubt of it. "En todas partes cuecen habas." It

Teaching-Staff

The Staff, which is now completed, consists of the following; and, as will be seen by the qualifications appended is, perhaps the best working-staff to be found in any private school, Native or Foreign, in the Argentine Republic.

I—Rector; A Watson Hutton, M.A., F.E.I.S. Master of Arts ("Honours" in Philosophy, Edinburgh University); Fellow of the Educational Institute of Scotland, First Prize Essayist (Educational Subjects) Edinburgh University, Session 1879-80; and, for more than eight years one of the Masters of George Watson' College, Edinburgh.

II—Lady-Superintendent, Mrs. Hutton, Government Certificated Teacher; 'Queen's Scholar' of the Normal Training College, Edinburgh; and for more than seven years Chief Lady-Teacher in George Watson's College, Edinburgh.

III—Spanish, French &c. Master, M. Edmund Reydams, "Gradué en Lettres," Brussels University.

IV—Elementary Mistress and General Assistant, Miss E C Waters, Government Certificated Teacher, for over eight years one of the Teachers in George Heriot's Out-door Schools Edinburgh; and lately in Viscountess Keith's School, Kincardine-on-Forth.

V—Music Teacher, Miss M A Russell, lately of the Ladies' College, Edinburgh, where for the last ten years she has been teaching the Piano and the Harmonium in co-operation with Professor F W Bridgman, the leading Music Master in Scotland.

VI—Drill Sergeant and Gymnastic Master, Mr Wm. G. Water, lately of the First Edinburgh Rifles, and Cowan's Gymnasium, Edinburgh.

IN CAPTIVITY WITH THE MAHDI.

ESCAPE FROM EL OBEID.

SUFFERINGS OF THE PRIESTS AND NUNS.

THRILLING NARATIVE OF FATHER BONONI.

(Continued)

They fell upon him pouring forth these maledictions, and he died like a brave man, with the utmost fortitude. I forgot to mention that on the entering of the town by the dervishes this gallant soldier tried to blow up the magazine and destroy himself and army with the rebels, but the officers prevented him. The dervishes now in their rage—for they were cut to the heart by the words of the commandant—sought out Ali Bey Sherrif; him they also slew, with other officers. Now the dervishes returned to Mahomet Achmet, and told all these things to him. He burst into a flood of tears, threw dust on his head, and up-braided them for thus spilling blood.

"Ye sanguinary men, O ye dervishes. These deeds do not find favour in my sight."

During the siege a priest named Giovanni Losi, died in Obeid, but two others were captured, and compelled to embrace Islamism, and there were five sisters taken at the same time; these were now sent as companions to us, in the hopes that they should follow the [illegible] of the [illegible] refuse in the most determined manner to leave their religion. In what a fearful condition these poor women were—bags of bones. They never left the house. This was the state of things to the 28th March, 1883.

One day a letter slipped into my hand; it was from Hicks Pacha, then at Khartoum, and was dated 21st of April. He stated in it that he was on the point of marching against Obeid with a large army, and told me to be of good cheer, for he would surely deliver us. While I was at Obeid I saw three men being hunted out of the town; but there seemed to be something unreal in this chase. I have since heard they were the three sham guides of Hicks. This was done for effect; they were ordered to mislead him. Khalifa Abdalla El Taishi now arrived at Obeid. The first thing he did was to have us brought up before him. He then enjoined us to embrace Islamism. We replied to him as we had to Mahomet Achmet when the same demand was made. We were sent back to our house, but he sent us an order to deliver up to him the sisters. We replied, "By your own Moslem law, women are forbidden to visit the houses of strangers." However, on the 1st of April, he sent and took the nuns by force, and a terrible life, if possible, was now to be their lot. They were distributed as slaves among the Emirs! I and my two companions, men, were treated in the same way. I was sent to the Bert El Wal, Giuseppe Arvalder to the house of the Emir Abdalla, Wad en Noor, and Giuseppe Regnolo to the house of Sherrif Mahmoud. From that day I never saw the sisters! but I know that the treatment they received was horrible, most horrible. They were afflicted and tormented in order that they might be induced to embrace Islamism, but they were steadfast in the faith, neither would they deny their Saviour. Some time after this these wretched women were made to go along on foot almost nude to Rahat. The Mahdi was there, and they were brought before him. Alas, their frail nature could hold out no longer. Their strength of mind as well as body was gone. Driven to desperation, to avoid greater degradations and insults, they affected to embrace Islamism. They were then taken as wives by three Greeks who themselves had become Mohammedans. The names of their so-called husbands were Demetri Cocoronbo, Andrea, and Faragioh. These men declare that they only did this to save the women from a worse fate, and that the marriage is really one in name only. I therefore consider them to be deserving of the highest honour, for by so doing they incurred great risk of life.

On the 20th of April I was sent myself to Rahat with my two companions, and kept there till the 30th of August, when we were conducted back to El Obeid with heavy chains round our necks after the manner of conducting criminals in the country. We were again released, and dwelt in a house of Es Sherrif Mahmoud, full liberty being given to go to and fro about the town, and even in its neighbourhood.

And now the day of my deliverance was at hand. Little attention was paid to my ingoings and outgoings. Famine stalked through the town, and it was full of that direst of diseases, small-pox. Men were dying—masses of corruption right and left. As the Egyptian soldiers had done during the siege the Arabs were doing now—actually digging up skeletons of carcases buried years back. There was little corn; it was sold at 50 reals an ardeb. It was found that many merchants who had fled from Obeid had buried their gum in the ground. This, though it had become rotten, was now dug up and eaten by hundreds. Es Sherrif Mahmoud, the Mahdi's Emir, had gone to Buke with an army of 2,000 men, half of them carrying rifles. His intention was to attack Nowai, the chief of the Howayma and Homran Baggara—the Arabs who had deserted at Omderman, and raised the standard of revolt against him among the Bedouins in Gebel Kowaleeb. It was the 15th of last Regib when he set forth to battle against these men. While he thus threatens the Arabs from the north Abo Anza menaces them from the east. I hear that Nowai, hearing of their approach retreated to Gebel Dinka, in the south; but some submitted to Mahmoud, while others did the same to Abo Anga. Others, again, fled to their home. As Abo Anga advanced from Omderman he collected re-inforcements on the way, and at last, when he had 10,000, he made an attack on Gebel Lamman, one of the Tagala mountins. He laid waste all the country round, and carried off the inhabitants as slaves besides taking large quantities of grain, cattle, and sheep. He now advanced upon Gebel Dair, and drove El Mek Kumbo to the mountains. Thus as he has posssession of the land at the foot of the mountains the inhabitants are unable to till the land. A guerilla war is carried on there; every now and then the brave mountaineers sweep down at night and retake their cattle. This they do with great success, and their raids actually extend to near Obeid. On the one hand the mountaineers dare not risk an open battle; on the other, the dervishes dare not ascend the mountains.

Dysentery, Cholera Fever, Ague Coughs, Colds, &c.

Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.

CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davernport, Esq., 22, Great Russell Street, Bloomsbury London—"Dear Sir, we embrace this opportunity of congaulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholerair Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Gold ..... 43 o/o prom.
Cedulas E 80½
Cedulas F 80½
Cedulas G 87½
Nat. Bank Certificates.. 109

The gold market resumed its old channel to-day and affairs at the ring ruled active. The liquidation is being rapidly closed and next week the whole affair will have been forgotten. The gold speculation, meantime, looks feeble and operations this morning shewed a falling tendency. The bulls are in the background and are apparently doing little or nothing; it may suit their interest to favor a fall in the gold premium this fortnight, but they will, no doubt, fight for a rise as the end of the month draws near.

Several bearish rumors were floated at an early hour and, although perhaps nobody believed in their veracity, many were influenced by them as they helped to increase the bearish current of the market. These 'canards' come rather early in the month and they principally refer to the loan business, to a split of opinion in the Cabinet, and to the return of Dr. Pellegrini. As the current opinion in the market is that gold has touched its highest price for some time to come, there is an inclination in outside quarters to sell for the 30th and for the end of October. The bulls this month will have to contend with strong bearish reinforcements to judge by this morning's speculation.

Operators who favor a fall are beginning to view everything in a roseate light. Their sharp ears can already hear the grating sounds of the shears all over the Province; the return of the busy season, in their opinion, must influence this month's speculation, as the merchants must draw and exchange become more plentiful; Pellegrini, they say, comes back with the fixed determination to carry through his loan negotiation, and the President, it is whispered, is in his favor, although there are other members of the Cabinet dead against the business. But the bears are quite deaf to the jingling of the three million gold dollars in the large pockets of the bulls, and they jump at too quick a conclusion when they think that the prospects of the return of the busy season will suffice to defeat the bulls and bring down the premium. The speculation this month will be at the mercy of the stronger elements, and the rise or fall of the premium will depend upon the strength of the dealers round the ring. Next month, no doubt, the whole market will feel the pressure of the busy season and any speculation for a rise must be an operation against current, but for the present the price of gold is a question to be settled amongst speculators. This month must necessarily be a lively one; if gold falls, the bulls will lose what they won last month, and as a strong bearish current has set in, they will strain every nerve to hold their ground and push the premium.

What with Dr. Pellegrini's return from Europe, the resumption of the loan negotiation in Congress, and the rumored split in the Cabinet, the bulls will have a particularly hard time this month; but as the commissioner will only arrive towards the end of the month, the great question will not enter the feverish stage of hot debate before October. What is more remarkable, is the movement in speculative opinion; there is a visible veering round in many quarters, and as a general belief is gaining gronnd that we are on the eve of a change, if not this, next month, there is a strong inclination to sell on the part of outsiders. They ought to profit by last month's experience, but it looks as if the great speculative movement will be for the end of October.

About 70,000$ gold changed hands for cash this morning: the market opened at 44.50, rose to 44.60, and closed weak at 43. Over 60,000 were sold for the 4th, 5th and 15th at 44 and 43½. Operations for the end of month embraced 395,000$; the market opened at 43, fell to 41½, and closed weak at 42. Speculation for the end of next month began to-day: $150,000$ were sold at 39½ and 40. Ten thousand were sold for the end of November at 39. Nearly 700,000$ were sold during official hours. The market made a slight stand in cash prices, but the speculation for the end of the month ruled very weak and rates crumbled away very rapidly. The market closed with a bearish feeling all round. The bulls made no efforts to prevent the fall.

The official organ, whose opinions are always read with interest, had a lengthy article this morning on the cause of the present high premium on gold. Our colleague arrives at the conclusion that the direct cause is the superabundance of paper money in this market, and proposes as a remedy that the circulation of notes of the Provincial Bank be reduced by ten millions. This advice, however, comes too late, as the busy season is at hand and nobody in his senses can dream of a restriction of discounts at a moment when every paper dollar will be needed to supply the wants of the farmers. A discretional restriction of discounts should have been carried out by both Nat. and Provincial Banks four months ago, when the demand for money in the produce market stopped, and all the paper in the country was swept into this market to find employment. As far as we can glean, our colleague advocates increased issue of paper in favor of the National Bank and restriction of issue against the Provincial Bank, on the plea that the former has to meet the demands of the whole country with an issue of 28 millions, whilst the latter has merely to supply the province and city of Buenos Aires, and enjoys a circulation of 27 millions. It would appear that the Provincial Bank is in very bad odour in national circles, and the tone of the official organ confirms the suspicion.

The chief feature in stocks and shares to-day was the sudden jump in National Bank Certicates. The scrip advanced five points, and the jump gave rise to much curiosity. Several hundred certificates changed hands for cash at 109—with 70 o/o paid up. The forced currency bill ought to give the stock a considerable spurt, as the shareholders may rely on heavy dividends, if the bill is made law. Cedules looked firmer to-day. Cedulas E changed hands at 80½, F at 80½ and G at 87½. In spite of the sudden rise in the scrip of the National Bank no paid-up shares were sold this morning.

Exchange is quoted at 47d. nominal, bu there is a slight feeling of weakness in the market, although takers are scarce. Money continues cheap.

We received a note to-day from Mr Castilla, begging us to inform the public that his liabilities for August and September do not amount to the high figure of 100,000$m/n. and that he has offered to make a compromise at something above 50 o/o—the utmost he could get together to meet his differences. We understand that Mr Castilla offers 20 per cent cash and 30 per cent in I.O.U.s.

The following is a summary of operations effected this morning at the ring during official hours:—

The Rosario "matadero" slaughtered last month:—
2,542 head of cattle
7,421 sheep.

The following are the trade figures of the Rosario Custom House for last month:—

Imports....	$ 972,489 m/n.
Exports....	1,056,605
	$2,029,094 m/n.

Custom dues—

Imports....	$282,362.88 m/n
Exports....	17,651.67
	$300,014.55 m/n

The amount of dues collected during the month was 248,300 m/n. The export of Bolivian produce in transit amounted to 354,996 m/n.; in former years this item used to be considerably larger, but since the close of the West Coast war this Bolivian transit trade has been falling off rapidly.

Advices from Tucuman announce that a firm of that market has sold two thousand bags of sugar of first quality at $2 m/n per arroba. The price paid shows the firm position of the article. Some sugar factories will stop crushing next fortnight, but the majority will continue working up to the end of the month. The sugar this year is better than last season and there is a fair increase in the quantity. The La Esperanza factory has turned out 125,000 arrobas of sugar this season. Mr. W. Posse's splendid factory will probably turn out 200,000 arrobas.

The following charters are reported in Rosario:—

Amer. barque Lorena to load hay for Rio.

Amer. barque Archer to load hides, wool and hair for Boston.

Norw. barque Siegfried to load hay for Brazil.

Mr. James Lowry and Mr. F. Weldon have left for Paraguay on a short pleasant trip. This is the most pleasant season for a Paraguayan trip.

Mr. Ristorini, auctioneer, will sell on Sunday several building sites in Almagro, in the Calle 2ª Piedad, a square distant from the rails of the Argentine Tramway. These sites are situated on high ground, and are in the vicinity of the beautiful quintas of Frangenheim, Achaval, Vivanco, Tarragona, &c. This is an excellent opportunity for investors as no part of the city is going ahead as fast as Almagro. In another column our readers will find full particulars in the advertisement.

The Commercial Judge has declared A. Calcagno bankrupt. Liabilities amount to $20,000 m/n. Mr. Jose Nevares has been named syndic and C. Carmann, "juez comisario".

Unifieds looked somewhat firmer yesterday on the Montevidean Bolsa. Telegrams from London quoted the stock at 52, and the news spread a little sunshine over the speculation. Fair amounts of exchange were passed yesterday for the Tamar and Magellan.

Mr Shaw, the well-known manager of the Montevideo Gas Works, was welcomed in Montevideo on his return from Europe.

Freights rule very dull, but shipbrokers state that rates, even at the present low figures, are higher than this time last year. The freight market in Brazil shews symptoms of improvement. Rates here are quoted at 12/6 per bale. Sheepskins and grain go forward in fair quantities.

We hear that the 1½ league of land, in the district of Pergamino, referred to in our last issue, was sold by Messrs Gomez & Olivera for 85,000$m/n; the stock on the camp, comprising 4,000 cows, 16,000 sheep and 800 mares, was not sold.

The Custom House gave yesterday $62,000 m/n. The returns of the year up to date amount to $16,600,000 m/n.

The Rio Negro land bill granting 'estancias' to all the officers who took part in the great expedition of 1878, was passed in Congress yesterday. Some splendid lands in the valley of the Rio Negro will soon thrown on the market. There are already several leagues offering in front of the island of Choel-e-Choel. Estancias in the Rio Negro are baronial estates, with rivers, innumerable lakes, woods and beautiful scenery. There are, however, so-called 'travesias' that are not worth the ashes of a paper cigarette.

Telegrams from Rio quote exchange on London at 18¾d., banking paper.

In another column we publish the decree of the Finance Office on the real estate tax in this city. It will interest house-owners.

No settlement has been yet made with parties who failed to meet their differences in the liquidation of last month's affairs. Brokers are very indignant, and there is no longer that spirit of concession that formed one of the leading features of former Krachs. Creditors want to know the names of principals, and they are very much riled at the silence of the cattle king.

Exchange this afternoon looked rather weak at 47d. There is very little exchange in the market, but there are also very few takers. Rates are quoted at 46¾ to 47d on London, 4.95 to 4.95 fcs. Some marks were passed to-day at 4. Some Montevidean exchange is offered at 46¾d.

The gold market ruled dull during afternoon. The premium opened at 42, fell immediately to 41½, ruled weak a long time at this rate, but closed at 42 sellers; about two hundred thousand dollars were sold for the end of the month.

On Monday the members will move into the new exchange building in the Calle Piedad. The Camara Sindical has very properly refused to make any official inauguration of the building, as the members had quite enough with the Bolsa ball business.

The fourth series of London Colonial wool sales opened yesterday. Over three hundred thousand bales will be offered at this auction. Opening prices show a shrinkage of 5 to 10 o/o compared with the results of last auction. Australian kinds form the bulk of the wools offered.

From the Plaza Once de Setiembre we have the following:—

STIMULATE THE FALLING HAIR. If your hair is thinning out, remember that underneath the bere scalp there exist the germs for another growth, which requires a stimulant to bring it thcugh the epidermis and produce luxurious tresses. Apply the Oriental Tonic often, using the hairbrush vigorously in order to excite the absorbing pores, so that they may receive it, and its effects, will prove beneficial. The experience of all those using the Tonic, is that it not only strengthens the hair, but also increases it. In warm climates where ladies inadvertently have recourse to deleterious oils, it will be found superior to dress the hair, imparting to it lustre, elasticity and beuty.
